INTIMIDATOR®

DOMINATE YOUR LAND

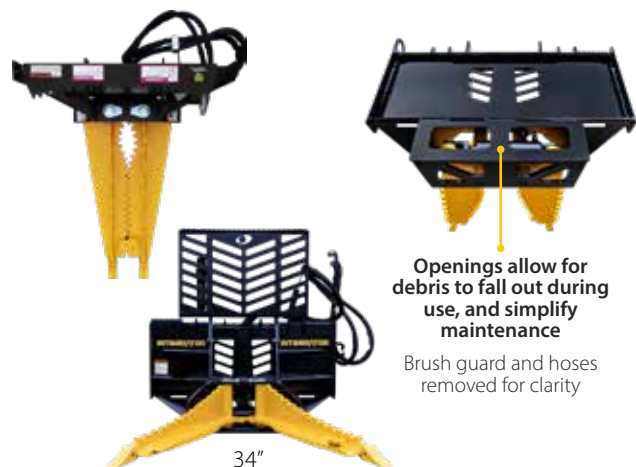

A TRUE LAND-CLEARING, OBSTACLE-REMOVING ATTACHMENT FOR YOUR CTL/SKID-STEER OR TRACTOR

The Danuser Intimidator is a versatile, high-performance tool for tough land-clearing jobs on farms or job sites. It is built to effortlessly remove trees, saplings, shrubs, stumps, posts, and rocks, delivering both power and precision. Whether you are clearing a single tree or a dense area, the Intimidator ensures efficient, effective results.

- Combines a tree puller, post puller, stump bucket, and rock picker
- Selective elimination of trees with the ability to easily maneuver in tight spaces and near buildings or fences
- Replaceable excavator bucket teeth and vertical jaw saw teeth dig and cut through roots, enabling removal of larger trees or stumps
- Synchronized jaws powered by a rear-mounted, fully protected 3" cylinder reduce wear on your vehicle
- Choose between smooth side jaws or side saw tooth jaws with bidirectional teeth for cutting trees and excavating roots
- Lower operating costs than a bulldozer and less effort than a chainsaw

IMPROVED FRAME DESIGN

MOUNTING OPTIONS

Skid-Steer Quick Attach
Euro/Global Quick Attach

Flat Back
 (for custom fabrication to fit other mount styles)

Maximum horsepower rating = 125 HP

FROM THE JOB SITE TO THE FARM

ELIMINATE BACKBREAKING LABOR WITH THE DANUSER MEGA MIXER!

Using the adjustable mounting brackets and pallet fork tine slots on both sides, conveniently dispense left or right. Built-in cutting edges and a robust design make the Mega Mixer well-suited for scooping from piles. This durable mixing bucket comes standard with dual safety grates, including integrated bag busters, which can be opened individually from either side of the bucket.

The Mega Mixer is built for efficiency, featuring a sturdy 8" diameter auger paired with a heavy-duty, low-speed, high-torque motor. It can dispense 3/4 yard of material (20 cubic ft.) in just 26 seconds – saving you time on the farm or job site. Each unit ships complete with hoses and flat face ISO couplers.

POWERFUL MIXING & CONVEYING

TRANSPORT, MIX, AND DISPENSE CONCRETE, WILDLIFE FEED, AGRICULTURAL GRAINS, GRAVEL, ASPHALT, AND MORE!

With a 1/2 yard base capacity (13.5 cubic ft.), and a 3/4 yard extended capacity (20 cubic ft.), the MAC Bucket replaces the manual labor of moving and mixing materials and is perfect for tight conditions where larger equipment is not ideal. This mixing and conveying (MAC) bucket features a skid-steer quick attach mount on both sides of the bucket, which allows for discharge from both the left and right sides. It is designed with no discharge gate and with the ability to self-load from loose piles, making the MAC Bucket a true one-person operation. All buckets come standard with two (2) multi-linked chutes (24" long) and two (2) 9' long hoses with flush-faced couplers (ISO 16028).

MAXIMUM DRIVING FORCE

THE ORIGINAL ONE-PERSON POST DRIVER

The Hammer offers powerful and reliable post-driving performance without the need for springs, hydraulic cylinders, or return lines. The hydraulic grapple option lets the operator grab a post off the ground, load it into the machine, and drive it into the ground without leaving the vehicle seat, while the tilt option allows up to 20° tilt left or right.

- Free fall weight design creates smooth operation with less shock back to the vehicle
- 3/4" steel plate protects the top of the post from Hammer weight damage
- Delivers maximum impact force with every stroke
- Ability to short stroke to fine tune post depth
- Top of post is contained preventing kickout
- No setup required, it's ready to go to work
- 1-Year Warranty

SPECIFICATIONS	
For full specifications, visit danuser.com	
Tilt	20° Left or Right
Machine Weight	915-1,245 lb.
Hammer Weight ¹	Standard 300 lb. (With additional weight kit: 500 lb. max.)
Length of Stroke	40"
Max. Strokes Per Minute	35
Hydraulic Requirements ²	1,500-3,000 PSI 12 to 30 GPM
Max. Post Size	8.5" x 9.25"
Impact Force	Standard 49,000 lb. (With additional weight kit: 82,000 lb.)
Impact Energy	Standard 1,025 ft.-lb. (With additional weight kit: 1,709 ft.-lb.)

¹ Additional weight kit (PN 21163) adds 200 lb. to machine weight for 60% more impact force.

² Hammer will still operate on vehicles with less than 12 GPM with fewer strokes per minute.

SM40

Skid-Steer Quick Attach Mounting Plate
(Shown with tilt option)

LM40

Offset Skid-Steer Quick Attach Mounting Plate for Front-End Loaders

EM40

Offset Euro/Global Quick Attach Mounting Plate for Front-End Loaders

CB40

Dedicated Concrete Breaker for 9" Thick Reinforced Concrete

Recommended 75 HP & above tractors. DO NOT exceed the tractor loader rated operating capacity. Use sufficient counterweights. Contact Danuser for excavator mount options.

Less maintenance and flying debris than traditional breakers.

ACCESSORIES / OPTIONS

Floating Horseshoe Plate

PN 21212

Recommended for up to 5" diameter pipe. Aids in keeping the pipe centered in the driver and reduces wear and tear on machine. Does not interfere with the operation of the grapple. Works with T-post adapter.

Guard Rail Plate

PN 21280

Recommended when driving 6" or 8" I-beams. Aids in keeping the guard rail from twisting and shifting.

Donut Plate

PN 21395

Recommended for up to 5" diameter pipe. More effective than the Horseshoe Strike Plate in keeping the pipe centered and reduces wear and tear on the machine. When using the grapple, a helper is recommended to position pipe in the Hammer. Works with T-post adapter.

Square Plate

4": PN 180005

6": PN 180007

Recommended when driving 4" or 6" square wood posts.

T-Post Adapter

PN 21149

Required for driving T-posts.

Concrete Breaker Kit

PN 21278

Replaces hammer weight with 500 lb. breaker attachment. Breaks up to 9" thick reinforced concrete. Delivers up to 82,000 lb. of impact force with each cycle. Kit includes additional hardware.

Grapple Option

May be added to any base model machine for one-person operation.

See danuser.com for part number.

Tilt Option

May be added to any base model machine for tilt up to 20° tilt left or right.

See danuser.com for part number.

Additional Weight Kit

PN 21163

Adds 200 lb. to machine weight for 60% more impact force.

Battery Connection Wiring Harness

PN 21253

Wiring Harness

PN 21220

8-Pin or 14-Pin Pigtail

For CTL/skid-steer models only.

Allows control of tilt function from vehicle joystick.

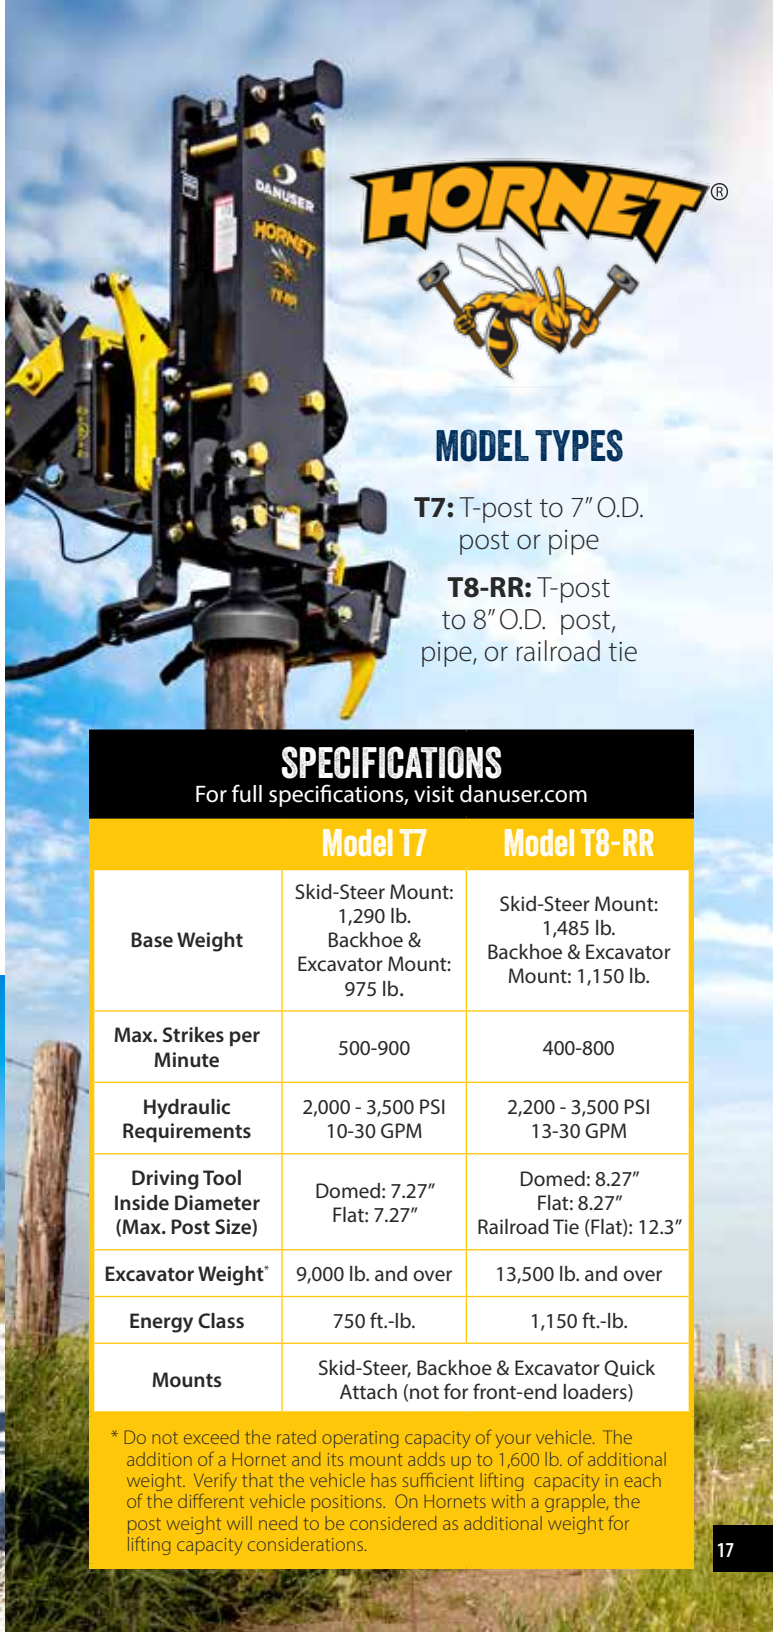

DRIVE LIKE A PRO...

...EVEN ON YOUR OWN

The Hornet is a quick and powerful post driver, featuring a jackhammer-style power cell for controlled, high-speed performance. Its hydraulic grapple enables one-person operation, making it a versatile all-in-one solution for post installation.

Standard flow control valve allows for use on a wider range of hydraulic systems, including high-flow machines, without accelerated wear on the driver. Additional weight kit option (CTL/skid-steer models only) helps fine tune the weight of the driver to match the operating capacity of the vehicle and increases driving speed up to 50%.

- ☛ Tilt option allows 20° tilt left or right
- ☛ Choose a domed, flat, or railroad tie flat (T8-RR only) driving tool
- ☛ Tool-less quick change eliminates the need for hammer and punch when changing driving tools
- ☛ CTL/skid-steer mounted machine includes a post holder frame with tie down for transporting posts/pipe
- ☛ 1-Year Warranty

MODEL TYPES

T7: T-post to 7" O.D. post or pipe

T8-RR: T-post to 8" O.D. post, pipe, or railroad tie

SPECIFICATIONS

For full specifications, visit danuser.com

	Model T7	Model T8-RR
Base Weight	Skid-Steer Mount: 1,290 lb. Backhoe & Excavator Mount: 975 lb.	Skid-Steer Mount: 1,485 lb. Backhoe & Excavator Mount: 1,150 lb.
Max. Strikes per Minute	500-900	400-800
Hydraulic Requirements	2,000 - 3,500 PSI 10-30 GPM	2,200 - 3,500 PSI 13-30 GPM
Driving Tool Inside Diameter (Max. Post Size)	Domed: 7.27" Flat: 7.27"	Domed: 8.27" Flat: 8.27" Railroad Tie (Flat): 12.3"
Excavator Weight*	9,000 lb. and over	13,500 lb. and over
Energy Class	750 ft.-lb.	1,150 ft.-lb.
Mounts	Skid-Steer, Backhoe & Excavator Quick Attach (not for front-end loaders)	

* Do not exceed the rated operating capacity of your vehicle. The addition of a Hornet and its mount adds up to 1,600 lb. of additional weight. Verify that the vehicle has sufficient lifting capacity in each of the different vehicle positions. On Hornets with a grapple, the post weight will need to be considered as additional weight for lifting capacity considerations.

ACCESSORIES / OPTIONS

Grapple Option

May be added to any base model machine for one-person operation.

See danuser.com for part number.

Tilt Option

May be added to any base model machine for tilt up to 20° tilt left or right.

See danuser.com for part number.

Additional Weight Kit

With Tilt: PN 214201

Without Tilt: PN 200076

For CTL/skid-steer models only.

Battery Connection Wiring Harness

PN 21253

Wiring Harness

PN 21220

8-Pin or 14-Pin Pigtail

For CTL/skid-steer models only.

Allows control of tilt function from vehicle joystick.

Driving Tools

Domed: (T7: PN 196067 / T8-RR : PN 196074)

Suitable for all types of posts and pipe.

Flat: (T7: PN 196067F / T8-RR: PN 196074F)

Generally used for wood posts.

T8-RR Railroad Tie Flat: (PN 196074R)

Generally used for 7"x9" railroad ties or other posts up to 12" diameter.

T-Post Adapter

PN 21149

Required for driving T-posts. If using Domed Driving Tool, must order T-Post Adapter Domed Driving Tool Kit (PN 220011)

*Concrete Breaker

T7: PN 236080

T8-RR: PN 236082

Use to break rock and reinforced concrete. Tool has amoil style point.

*Rock Spike

PN 236090

For use on all versions of T8-RR only.

Use to create pilot holes for posts in rocky areas. Overall length 60".

BACKHOE & EXCAVATOR MOUNTS

Quick attach systems

Tool-less installation

Three-hole adjustment configuration for vehicle clearance

Mounts sold separately from base unit

EFFORTLESS POST DRIVING

THE T3 POST DRIVER IS A SMALL DRIVER THAT DELIVERS BIG TIME RESULTS!

The T3 Driver will drive T-posts up to a 3" O.D. pipe at a rate of up to six strikes per second. The top of the post is fully contained to prevent kick out and protected from damage by the strike plate. Use your tractor, CTL/skid-steer, mini-track/skid loader, mini-ex, loader, or backhoe to carry the weight of the driver. This is an ideal post driver for most farmers, ranchers, fencing contractors, and rental yards.

- 6 strikes per second up to 30 GPM
- Drives T-posts, tent stakes, signposts, and up to 3" O.D. pipe
- Versatile mounting options are available for quick attach systems, as well as a bolt-on/weld-on bracket that mounts to a flat surface. (All mounts are interchangeable with the T3 and tilt bracket.)

ACCESSORIES

PLANETARY POWERHOUSE

DESIGNED TO DIG DEEPER AND LAST LONGER

The EP is built with a Danuser engineered planetary with up to 42% more output torque than the competition. Hoses routed out the top of the drive unit, secured with bulkhead nuts, allow for deeper digging in tighter spots with better hose protection. Backed by a 5-year warranty on the drive unit and lifetime coverage for spindle pullout, the EP is built to handle the toughest jobs.

-  Convenient check and fill plugs for quick service
-  Output spindle manufactured as a single piece
-  Mounts available for CTL/skid-steers, mini-track/skid loader, front-end loader, backhoe, and excavator
-  Skid-steer quick attach mounts fit both CTL/skid-steers and front-end loaders
-  Hose holder spring kit included on skid-steer and offset tractor loader mounts
-  All drive units ship with 45° hose fittings installed
-  Compatible with 2" hex auger bits
-  Comes with auger retaining bolt

- 🔧 10" and 16" diameter options
- 🔧 10" for use with 1,700 ft.-lb. of torque and higher drive units
- 🔧 16" for use with 3,000 ft.-lb. of torque and higher drive units
- 🔧 Overall length: 27" for both sizes

TAKE THE BITE OUT OF ROLLING UP FENCE WIRE

WIRE WINDER

The Python Wire Winder uses an auger system to effortlessly roll up fence wire, making it more manageable for handling and transportation.

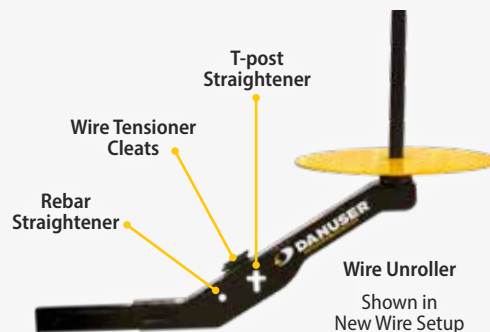

- Can roll up to 3/4 mile of barbed wire (12.5 gauge) or six miles of smooth wire (14 gauge)
- 2" hex connection mounts to existing hydraulic auger drive (not for PTO use)
- Two (2) tie wire locations
- Ten (10) slot locations to start wire
- Tool-less operation
- Convenient retention pin holder locations
- Roll multiple wires at one time

WIRE UNROLLER

The Python Wire Unroller easily unrolls new and Python-rolled spools of wire for faster fencing.

- Unrolls barbed or smooth wire
- Connects to a 2" receiver hitch
- Optimal clearance for open tailgates providing easy access to cargo area
- Built-in wire tensioner cleats for stretching and holding wire for desired tightness
- Controlled spinning to prevent backlash
- Angled design of hitch connection gives the Python Wire Unroller an additional 9 1/2" of ground clearance for work in uneven terrain

LOCK & LOAD

DANUSER OFFERS PALLET FORKS FOR A NUMBER OF DIFFERENT QUICK ATTACH SYSTEMS.

Expand the functionality of your pallet forks to carry logs, rocks, pipe, brush, debris, hay bales, fence posts, and more. Two options fit most pallet fork frame brands. Multi-Purpose Grapple bolts on with no frame modifications required. Unique design allows the grapple jaw to be quickly pinned in the upright position for normal pallet fork use.

PALLET FORKS

- ☞ Heavy-duty rail style frame supports up to 6,000 lb.
- ☞ Excellent operator visibility through frame, brick guard, & grapple
- ☞ Multiple tie-down locations on frame
- ☞ Flip-up latch style tine adjustments
- ☞ 3,500 lb. or 5,500 lb. tine capacities
- ☞ 48" tine length
- ☞ 2-Year Warranty

Pallet Fork Customization

Personalized brick guards available (for sets of 10 or more)

SKID-STEER QUICK ATTACH MOUNTS

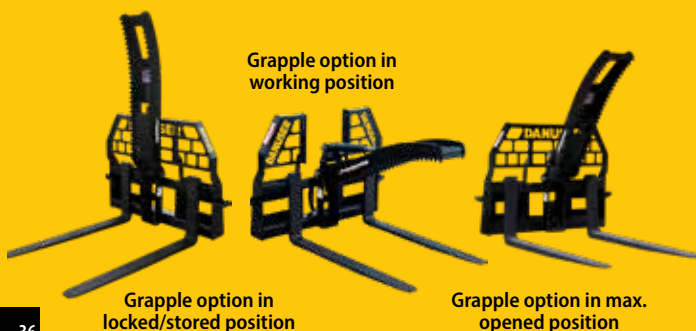

FRONT-END LOADER QUICK ATTACH MOUNTS

Euro/Global Loader
PN 12035

John Deere 200/300/400/500 Series Loaders

GRAPPLE

- ☞ Grapple can be locked and stored for normal pallet fork use (no tools required)
- ☞ Easily carry rocks, brush, logs, and more
- ☞ Maximum grapple opening of 55"
- ☞ Produces up to 9,500 lb. of force to secure loads
- ☞ 1-Year Warranty

DANUSER FAMILY LEGACY

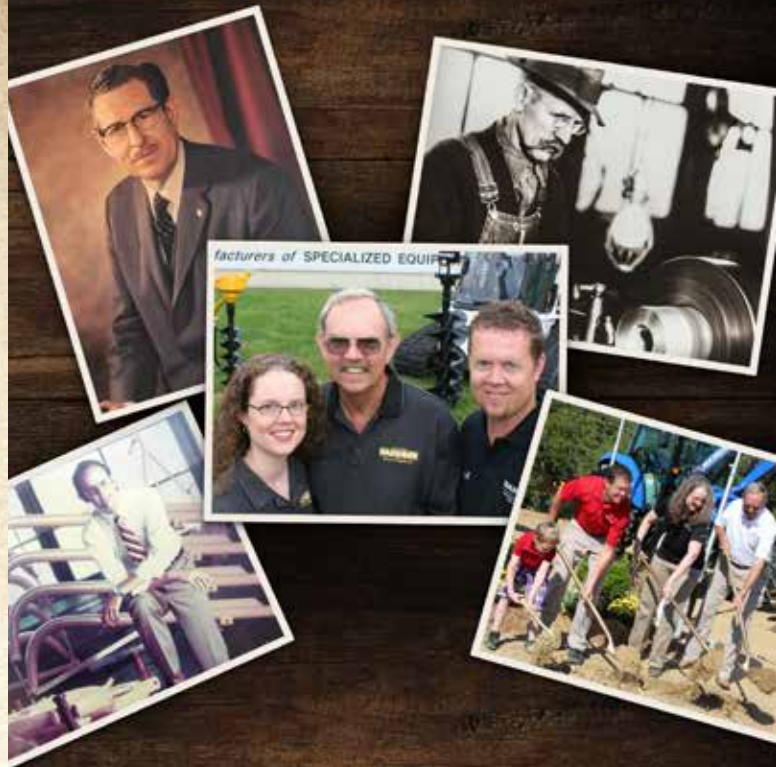

Danuser Machine Company traces its origins to 1880, when Swiss emigrant Kasper Berry Danuser arrived in the U.S. In 1905, he built the first Danuser-branded farm wagon in Readsville, Missouri. By 1910, the family settled in Fulton, where Kasper ran a blacksmith shop while also threshing grain and sawmilling. His son, Henry, inherited his mechanical skill, working in aviation and traveling Europe before returning home to expand the family business.

Henry took over in 1937, shifting from repairs to manufacturing. He introduced a portable air compressor, a tree-moving machine, and the first rear-mounted tractor blade in the U.S. Danuser supplied major companies like Ford, Case, and International Harvester, producing thousands of implements. In 1968, the company earned the Presidential "E" Award for export excellence, reinforcing its global reputation. Through decades of innovation, Danuser remained committed to quality and craftsmanship.

Now in its fourth generation, Danuser remains committed to quality, growth, and its employees. We take pride in our history, our people, and our products, ensuring the same dedication that has sustained us for over a century. As we expand to meet today's needs and plan for the next 100 years, we hold true to the words that have guided us from the beginning: "Good enough won't do- it must be right."

Glenn Danuser, Co-Owner

Janea Danuser, Co-Owner

WWW.DANUSER.COM

We are a fourth-generation, family-owned and operated business; we pride ourselves on our commitment to building quality attachments. With a full in-house engineering staff and a rigorous testing program, we ensure every product meets the highest standards before going to market. Our wide-ranging manufacturing facility allows us to design unique and niche attachments, while our dedication to superior customer service and continued support after the sale sets us apart. We are committed to the next 100 years of growth and innovation.

Sincerely,
Glenn Danuser
