MEGAMIXER

FROM THE JOB SITE TO THE FARM

ELIMINATE BACKBREAKING LABOR WITH THE DANUSER MEGA MIXER!

Using the adjustable mounting brackets and pallet fork tine slots on both sides, conveniently dispense left or right. Built-in cutting edges and a robust design make the Mega Mixer well-suited for scooping from piles. This durable mixing bucket comes standard with dual safety grates, including integrated bag busters, which can be opened individually from either side of the bucket.

The Mega Mixer is built for efficiency, featuring a sturdy 8" diameter auger paired with a heavy-duty, low-speed, high-torque motor. It can dispense 3/4 yard of material (20 cubic ft.) in just 26 seconds – saving you time on the farm or job site. Each unit ships complete with hoses and flat face ISO couplers.
