

EVEREST

HD SNOWBLOWERS

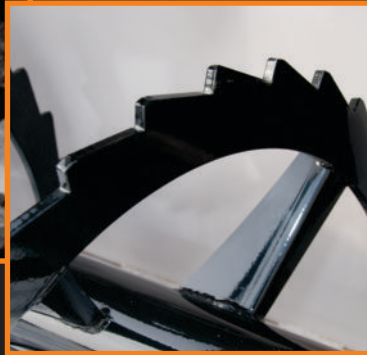

EVEREST SNOWBLOWERS

When you have lots of snow and tough conditions to work in, you now have a Blower that will get the job done. Designed for the removal of large amounts of snow with larger horsepower tractors, these Heavy Duty models are able to clean up the yard and get you moving again.

Enclosed chain case protects the auger drive from damage.

The serrated flighting on the bottom auger is extremely aggressive at eating up that hard packed snow and ice crust.

Adjustable and replaceable skid shoes are set close to the cutting blade.

Hydraulic gear driven chute rotator is standard.

Model

6108

6120
