SCATTER SHOT

UP TO
40 FOOT
BROADCAST

SINGLESHOT HS100

The Scattershot makes short work of your spreading tasks. This broadcast spreader comes in Singleshot and Doubleshot models.

The ice won't know what hit him when you take aim with the Singleshot broadcast spreader. The half yard hopper is also a durable scoop ready to load and reload at a moment's notice (on select models).

Made of durable galvanized steel, the Scattershot can handle what it dishes out. From sand to salt the internal agitators prevent material from clumping or building up so you get the most out of every load.

Add the optional 3 foot wide drop shield and this broadcast spreader is ready to take on paths and sidewalks without a lot of overspray.

UP TO
60 FOOT
BROADCAST

DOUBLESLOT HS200

Unload both barrels on your biggest jobs with the Doubleshot. This dual broadcast spreader can spread up to 60 feet wide. The twin hoppers are combined into a yard and a half capacity scoop that self loads with ease (on select models).

Give your plow all the back up it needs with the CAT 2 three-point tilt mount. Now you can plow, load and spread all with one machine.
