GT-77 Electric Broadcasters

The GT-77 Electric Broadcast seeders are a perfect fit for ATVs, UTVs, Mowers, or Small Tractors. This seeder will eliminate hours of time spent hand-seeding and is ideal for seeding clover or alfalfa over wheat. It's Vibrating Agitator ensure a constant Sure-Feed of the material being spread. The heavy duty plastic fan will evenly spread material up to 28' wide, and the cast iron baseplate will center the spread pattern of all types of material.

Mounting Kits are available for most ATVs, UTVs, Mowers or 3-point hook-up.

- ◇ 12-Volt Motor (low amp draw)
- ◇ Wiring harness equipped with fuse for motor production and quick coupler for easy attachment and removal
- ◇ Four-bladed Plastic Fan for even pattern spread
- ◇ Heavy Duty Grey-Iron Base
- ◇ Galvanized Hopper with 1.2 bushel (77#) capacity
- ◇ Hopper Lid to keep material in hopper and dry at all times
- ◇ Stainless Steel Pivot Plate for Years of Service

MODEL	DESCRIPTION	WEIGHT
GT-77-REG	Electric Broadcast Seeder/Spreader with Drawbar Hitch and Rheostat	47#
GT-77-ATV	Electric Broadcast Seeder/Spreader without mounting Many optional hitch kits available; Call for availability	38#

M3B Electric Seeder/Spreader

The M3B Electric Seeder was designed for spreading Seeds, Fertilizers, Granular Herbicides, and Ice Melters.

This versatile spreader was engineered to be mounted to farm tractors or pickup trucks.

An optional rheostat allows the spread width to be controlled from 10 feet to 30 feet. The amount of material being spread can be accurately controlled with the maximum spread width depending upon the density of the material being spread.

- ◇ Galvanized Steel Hopper with Hinged Lid
 - ◇ Steel Frame
- ◇ Vibrating Rate Gate for Constant Material Feed
- ◇ Remote Off/On Controls (Rope & Pulley System)
- ◇ 12-Volt Motor and Wiring Kit with Switch Included

OPTIONAL EQUIPMENT

- * Hopper Extension
- * 2" Receiver Hitch Mounting
- * 3-Point Hitch Mounting
- * Rheostat for width control

Herd

I-92 Broadcast Seeders

The I-92 Seeder is ideal for Spreading Seeds, Insecticides and Herbicides. The larger capacity (192#) galvanized hopper is a perfect fit for small tractors or UTVs.

The I-92 is equipped with a spinning agitator to give Herd's Sure-Feed of material through the seed gate. The Spread can be centered, and the metering system insures control of the amount of seed distributed.

Mounting kits are available for a many vehicles. The I-92 Broadcaster can be mounted on the 3-point of tractors, on a 2" receiver, or on UTVs.

The I-92-ORCHARD Seeder is equipped with a side mount kit. It also includes a width control kit for spreading granular insecticides or herbicides around trees or between vines. It is perfectly suited for grass or weed control around airports, along highways, or on ditch banks.

MODEL	DESCRIPTION	WEIGHT
I-92	Electric Broadcast Seeder/Spreader, less mountings	86#
I-92-O	Electric Broadcast Seeder/Spreader for Orchards, with side mount and width control kit	100#
