

AUGERS

REPLACEMENT TUBES & FLIGHTING

6" Gravity Box Auger Tubes

Along with our three styles of GRAVITY BOX AUGERS, MARKET FARM EQUIPMENT offers plastic replacement auger tubes for a number of our competitors augers.

These plastic auger tubes allow you to use most of the auger's existing parts like the flighting, hopper, hoses, winch, motor, valve and in most cases even the 6" downspout.

When replacing both the tube and flighting, lengths can be increased. Standard lengths are 12', 14' & 15'.

Plastic tubes available for the following steel augers:
 Market 612, 120 Pivot Style
 J&M Pivot Style, Uni-Swivel
 Turnco 12T4, 14T4
 Killbros 110, 112, 114, 115
 Unverferth/McCurdy AG-12, AG-14
