

PRO^{GRAIN}
EQUIPMENT

PRO^{GRAIN} BAGGER

First grain bagger ever built

Store as much grain as you want for just pennies a bushel

DEFEND GRAIN FROM WEATHER

Beat the harvest weather window

CHOOSE WHEN YOU SELL

Market your grain when you want

MOVE QUICKLY

Process 32,000 bushels/hour

SIMPLE, EFFECTIVE & TOUGH

Easy to setup & use, low maintenance

PAYS FOR ITSELF

Storage for only pennies per bushel

REDUCE LABOR

Harvest with less man power

PRO GRAIN EXTRACTOR

Get your grain out of the bag easily and efficiently.

PRO GRAIN EXTRACTOR (Mode E-1610)

- 10,500 BU/hr Capacity
- Extract 9' and 10' Bags
- 16" Main Loading Auger, 10" Cross Auger
- Heavy duty gear box, all Renold chain, splined auger connection, Weasler PTO

Easy set-up

Low maintenance

*Most chosen brand
for rentals*

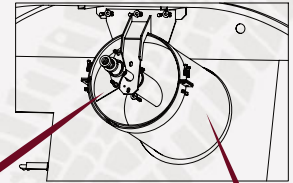

**Durable and reliable with 2 year limited warranty,
longest warranty in the bagger business**

Cradle bag lift system with KFI electric winch

No pinching bags, ability to load bag from offset angles,
reduced labor required to load bag quickly

Dual nylon ratchet strap system

Prevents grain leakage when loading
grain bag, easy bag adjustment,
stands up to weather and wear

**Replaceable
fighting wear plate**

Protects high wear portion
of fighting, extending fighting life

14 gauge tunnel walls

Ridged, heavy duty design
that lasts longer with
greater durability

Extended rear auger design

Prevent grain leakage
when loading grain bag

Heavy duty axles

Withstands tough terrains,
with greater durability
and reliability

Safety steps with platform

Ease and safety when you are
positioning and adjusting bags

Optional transfer auger

In addition to loading with grain cart
and combine you can also load with
super B or tandem truck

Heavy duty structural tube frame

Last longer with greater durability and dependability

Hydraulic braking system

Stronger braking system, improving
operation under variable terrains
or weather conditions

Deep bag tunnel

Prevents grain leakage when
loading grain bag

Built with heavier frame and metal throughout

More durable, dependable, and lasts longer

Leading brand in industrial agriculture paint

Very hard coating that stands up to wear and weather
After sandblasting, a 2-part epoxy-polyurethane; avg. 3-4mm thick is applied

Building grain bagging and handling equipment since 1986

More experience in bagging grain than any other company

Simple, straightforward proven design

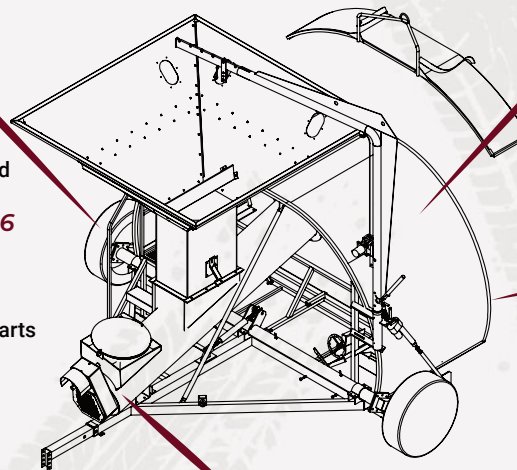

Easy setup and operation; low maintenance with standard, easy to source parts

Most chosen brand for rentals

For a reason: because of durability, reliability, proven design

**Continuous curve
tunnel edges**

Prevent grain leakage
when loading grain bag

16" & 20" auger capacity

High capacity auger to keep up with carts and combines
UltraFlyte™ fighting reduces wear and increases output

The Pro Grain Bagger is proudly
built and serviced in North America

Pro Grain Equipment Bagger Model Features

	B-1610	B-2010	B-2010H	B-2010N	B-2012
Features					
Adjustable hitch length & height					
Safety chains					
Heavy structural main frame (3/16" - 1/4")					
14 gauge tunnel wall					
Heavy duty 8,000# axle hubs					
Heavy duty 10,000# axle hubs					
Hydraulic disc brakes					
Precise brake pressure controlled by hand wheel					
Large 4" brake pressure gauge					
Continuous curve tunnel design					
5' Deep Tunnel Depth					
4' Deep Tunnel Depth					
Bag pan, with bag tighteners					
Manual bag pan height operation					
Electric bag pan height operation					
Adjustable screw thread bag pan mounts					
Double 2" nylon ratchet strap system					
16" auger, 24,000 BU/hr capacity					
20" auger, 32,000 BU/hr capacity					
Direct Drive PTO					
Replaceable auger wear plate					
Conveyor/auger inlet (see options)					
Bag boom with cradle lift system					
Crane with cradle lift system					
3000 lb electric winch (cradle lift)					
4500 lb electric winch (cradle lift)					
Electric trolley, with remote (cradle lift)					
Manual Trolley (cradle lift)					
Transport lights					
Rearview transport window					
Narrow road transport stance					
Options					
T-1425 transfer auger, 11,500 bph					
Electric bag pan height operation					
Road transport kit
