

SHEAREX

BRUSH GRAPPLE

Introducing the Brush Grapple by Shearex, a powerful and versatile tool designed to excel in forestry, recycling, scrap yards, construction, agriculture, and storm clean up application. Featuring an open-end design, it allows you to handle a wide range of materials, from logs and brush to roots and bulky debris. With twin hydraulic cylinder grapple arms protected by guards and operating under 3000 PSI of pressure, this attachment provides exceptional heavy-duty capacity for any job.

Cylinder protector

Double grapple, 3000 psi cylinder

Hydraulic hose guard

Greased rod

Universal skid steer attachment
